Office & Digital Tools: Microsoft Office (Word, Excel, Outlook), Google Workspace, AI Tools (ChatGPT, Claude, Gemini, Kiro AI)
Professional Skills: Communication, Customer Service, Problem-Solving, Attention to Detail, Documentation, Dependability, Adaptability, Working Independently & in a Team, Fast Learning

WORK EXPERIENCE

Customer Service Representative - Amazon MessageUs (Retail) May 2026 - August 2026
Sutherland, Tibag, Tarlac City, Tarlac

- Handled a high volume of customer inquiries per shift, verifying order, account, and shipment information across multiple systems before responding.
- Consistently met productivity, quality, and response-time targets in a fast-paced, high-volume environment.
- Followed established procedures and quality standards closely, applying strong attention to detail in every interaction.
- Communicated clearly and professionally with customers, resolving concerns efficiently under time pressure.

IT / Web Support Intern January - April 2026
DepEd Schools Division Office (SDO) - ICT Unit, Cabanatuan City, Nueva Ecija

- Provided IT support by responding to service requests, troubleshooting hardware and software issues, and resolving technical problems for end-users.
- Installed, configured, and maintained computer systems and equipment for staff use, including OS installation and general computer maintenance.
- Managed Microsoft 365 account administration under supervisor-granted access, including account creation, password resets, and credential management for staff.
- Built and added an IT Services Requisition module to the official SDO Cabanatuan website under senior developer guidance, allowing staff to submit and track IT support requests.
- Documented technical issues and resolutions consistently, maintaining organized and accurate records.
- Communicated technical issues clearly to both technical and non-technical staff while working closely with a senior developer.

PROJECTS

- **Guimba West District Information System** (Personal Project, 2026): Developed and tested system modules including secure user authentication and reporting dashboards.

- **Quest - MySQL Learning Hub** (Capstone Project, 2025-2026): Built and tested a full-stack web application using PHP, JavaScript, and MySQL, following a structured process from planning through testing.
